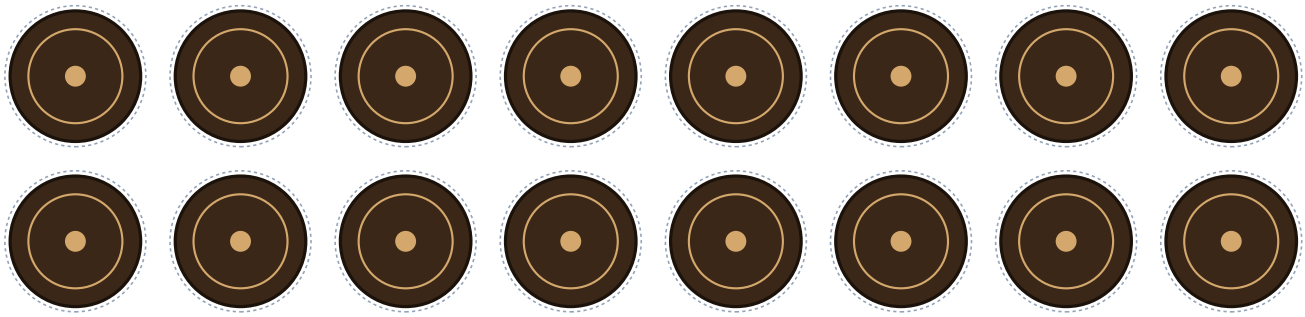
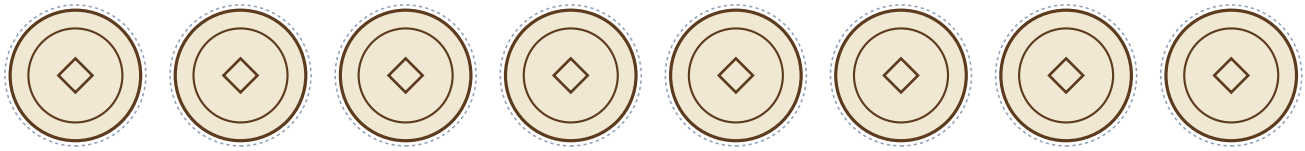
Hnefatafl: Pieces

Cut out 16 attackers, 8 defenders and 1 king. Card stock works best.

Attackers (dark): 16

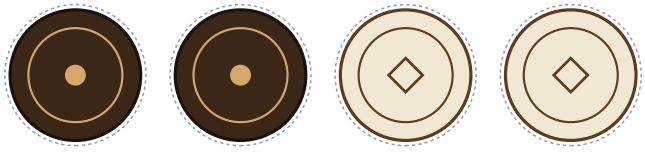


Defenders (light): 8



King: 1

Spares, in case one gets lost



Tip: glue the sheet to thin card before cutting, or use coins and buttons instead: 16 of one kind for the attackers, 8 of another for the defenders, and something taller (a bottle cap) for the king.
