Chad's Brick Tower

Chad had a big stack of red brick. He had a plan for the little cub. The cub was in his crib and was sad.

Chad set a brick up. Then he set up the rest of his big stack. The stack was so tall. Then, Chad had a trick to get a grin.

He got a brush. Chad got some green slop and put it on his brush. He put a spot on the top brick, and then two dots.

It was a frog! "Look!" said Chad. The cub sat up in his crib. He had a big grin for the frog on the brick.
