

Pam's Red Ship

Pam went out to get the mail.

The rain stopped, but it made a big pond on the grass.

Pam had a fun plan in her brain.

She ran back home to make a ship. She took a plain block of pine.

Then she made a tall, white sail. She put thick, red paint on the block.

Now she had a nice ship! Pam took the ship
down the main path.

She was going to have fun. "I will test it here," said Pam.

She set her ship in the pond. The ship went fast. It glided past the grass.
