

What Is a Sentence?

Read this together before the worksheets. A sentence tells a whole idea.

1 Who or what

A sentence names who or what it is about.

The frog sat on a log.

2 What happens

A sentence tells what that someone or something does or is.

The frog **sat on a log**.

3 Both parts

A sentence needs both parts. It starts with a capital letter and ends with an end mark.

The frog sat on a log**.**

4 Not a sentence yet

If one part is missing, it is not a sentence. "The big frog" does not tell what happens.

The big frog **hid**.
