Addition Word Problems (Answer Key)

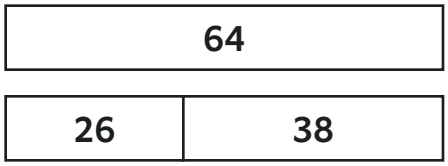

Grade 2, Set B · Adding within 100, with regrouping

Read each story. Write an addition equation in the boxes, then write your answer.

1 The school garden has 26 tomato plants and 38 bean plants. How many plants are in the garden?

26 + 38 = 64

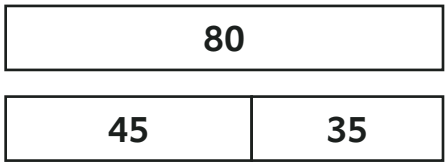

Answer: **64** plants

2 Leo has saved $45. The scooter he wants costs $80. How much more money does he need?

45 + 35 = 80

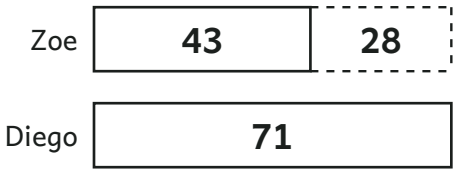

Answer: $ **35**

3 Zoe made 43 jumps with her jump rope. Diego made 28 more jumps than Zoe. How many jumps did Diego make?

43 + 28 = 71

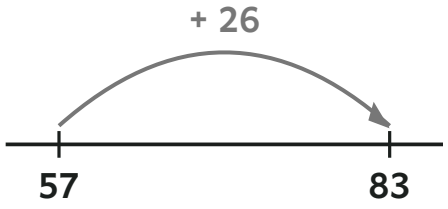

Answer: **71** jumps

4 A train has 57 riders. At the next stop 26 more riders get on. How many riders are on the train now?

57 + 26 = 83

Answer: **83** riders

5 Owen picked 24 apples. Noah picked 12 more apples than Owen. How many apples did the two boys pick in all?

24 + 12 = 36 then **36 + 24 = 60**

Answer: **60** apples
