Area of Composite Figures Set C

Name: _____

Larger figures. Two side lengths are left for you to work out.

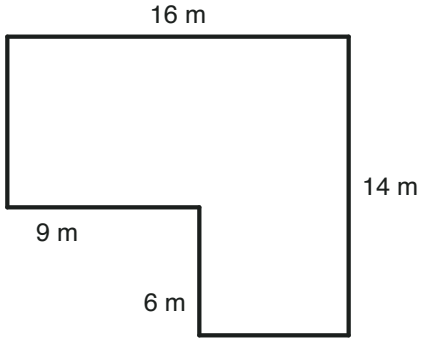

Two sides are not labelled. Work out the lengths you need from the other sides, then find the area.

1.

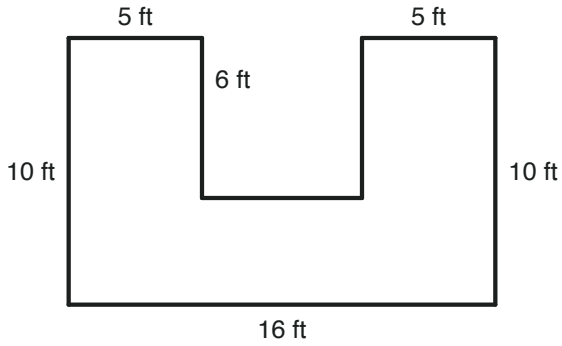

Area = _____ sq cm

2.

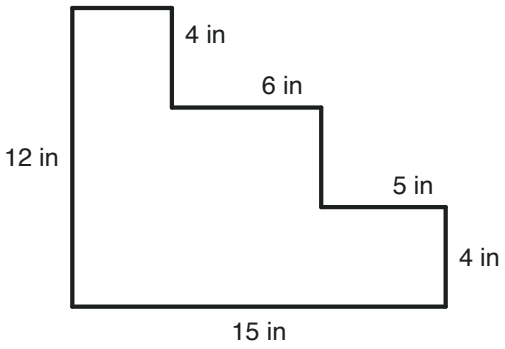

Area = _____ sq m

3.

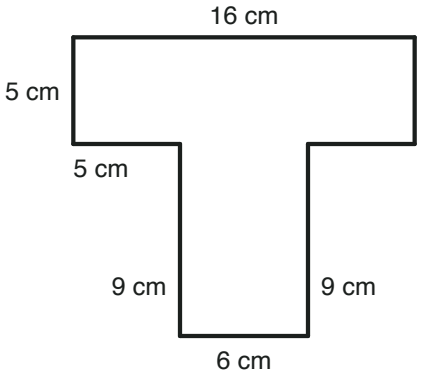

Area = _____ sq ft

4.

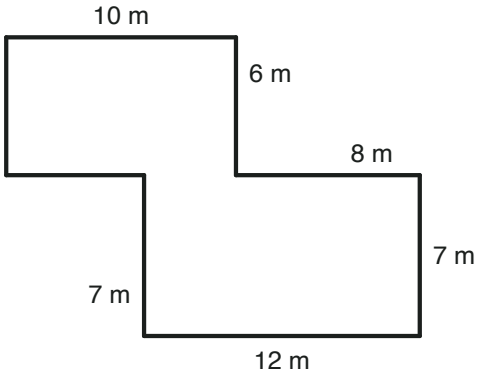

Area = _____ sq in

5.

Area = _____ sq cm

6.

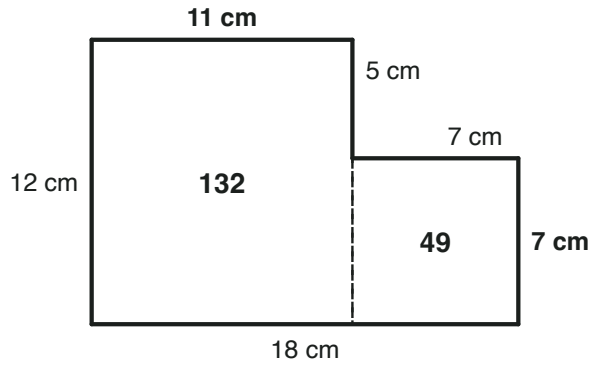

Area = _____ sq m

Area of Composite Figures Set C (Answer Key)

Larger figures. Two side lengths are left for you to work out.

Two sides are not labelled. Work out the lengths you need from the other sides, then find the area.

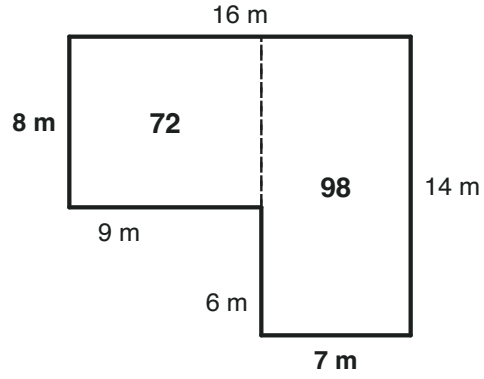

1.

132 + 49 = 181

Area = **181** sq cm

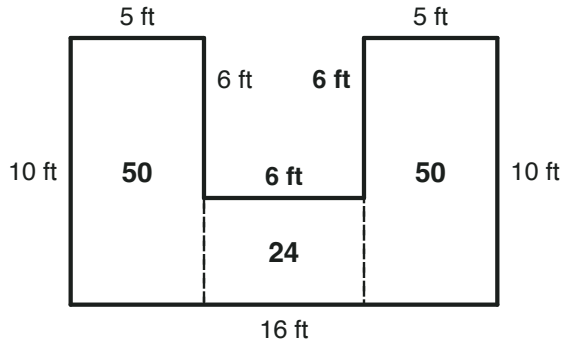

2.

98 + 72 = 170

Area = **170** sq m

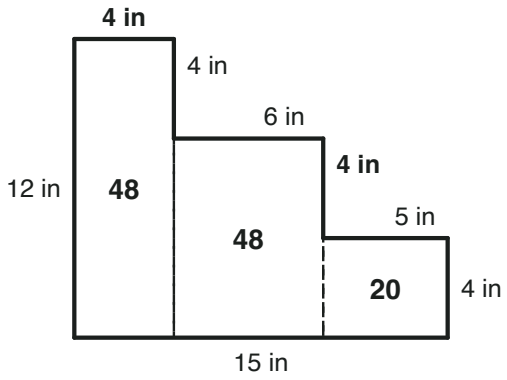

3.

50 + 24 + 50 = 124

Area = **124** sq ft

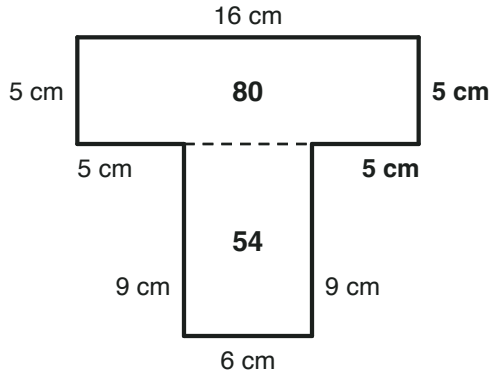

4.

48 + 48 + 20 = 116

Area = **116** sq in

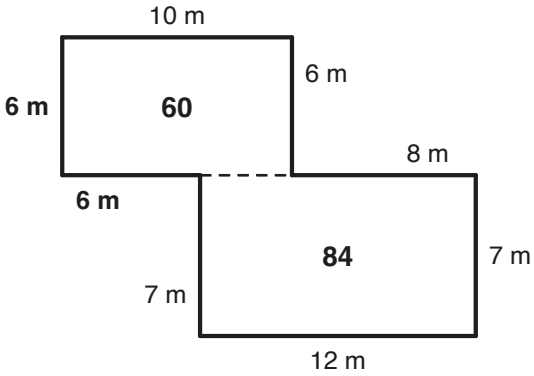

5.

80 + 54 = 134

Area = **134** sq cm

6.

60 + 84 = 144

Area = **144** sq m
