Farm Longest Line

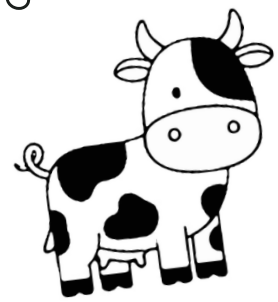

Divide by 2 For 2 players. You need 2 colored pencils.

1. Take turns. Pick any fact. Color it and one square with its answer.
2. If you color 2 ÷ 2, also color a 1.
3. Try to color squares that touch. You can block the other player.
4. Play until every square is colored.
5. Count your longest line of touching squares. It can turn a corner.
6. The longest line wins. If it is a tie, play Game 2.
