Estimate, Then Measure

Name _____

Grade 2 · Estimate a length in inches, then check with a ruler

This line is 1 inch long. Use it to help you estimate.

Estimate how long each thing is. Then measure it with the ruler below.

1

My estimate: about _____ inches I measured: _____ inches

2

My estimate: about _____ inches I measured: _____ inches

3

My estimate: about _____ inches I measured: _____ inches

4

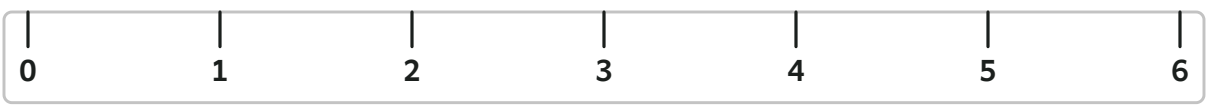

My estimate: about _____ inches I measured: _____ inches

5

My estimate: about _____ inches I measured: _____ inches

Cut out this ruler and measure with it.

Estimate, Then Measure (Answer Key)

Grade 2 · Estimate a length in inches, then check with a ruler

This line is 1 inch long. Use it to help you estimate.

Estimate how long each thing is. Then measure it with the ruler below.

1

My estimate: about _____ inches I measured: **4** inches

2

My estimate: about _____ inches I measured: **2** inches

3

My estimate: about _____ inches I measured: **6** inches

4

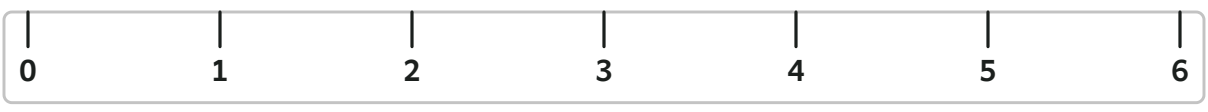

My estimate: about _____ inches I measured: **3** inches

5

My estimate: about _____ inches I measured: **5** inches

Cut out this ruler and measure with it.

Estimates will be different. A good estimate is within 1 inch of the measured length.
