

Starfish Race

Multiply by 3 and 4

For 2 players. You need 1 die and 2 colored pencils.

- 1 Take turns. Roll 1 die and find the row with that number.
- 2 Say the answer to the first fact in the row that is not colored.
- 3 If your partner agrees, color the circle. If not, your turn is over.
- 4 Color the last circle in a row? You win its starfish. Color it in.
- 5 Is the row already full? Your turn is over.
- 6 The first player to win 3 starfish wins the game.

Roll a 4:
play in row 4.
