

**LABEL MOHENJO-DARO**

Write the name of each part on its numbered line. Use the word bank.

**◆ WORD BANK ◆**

Lower Town
Baked bricks
Citadel mound

Great Hall
Courtyard house
Well

Main street
Great Bath
Covered drains

1. Why did the builders put the big public buildings on a high mound built up on brick platforms?

2. How did builders make the Great Bath hold water? What do many historians think it was used for?

3. Early archaeologists called one building the Great Granary. Why do many archaeologists now call it the Great Hall?

4. Describe how wastewater left a house and where it went. What does this tell us about how the city was built?
