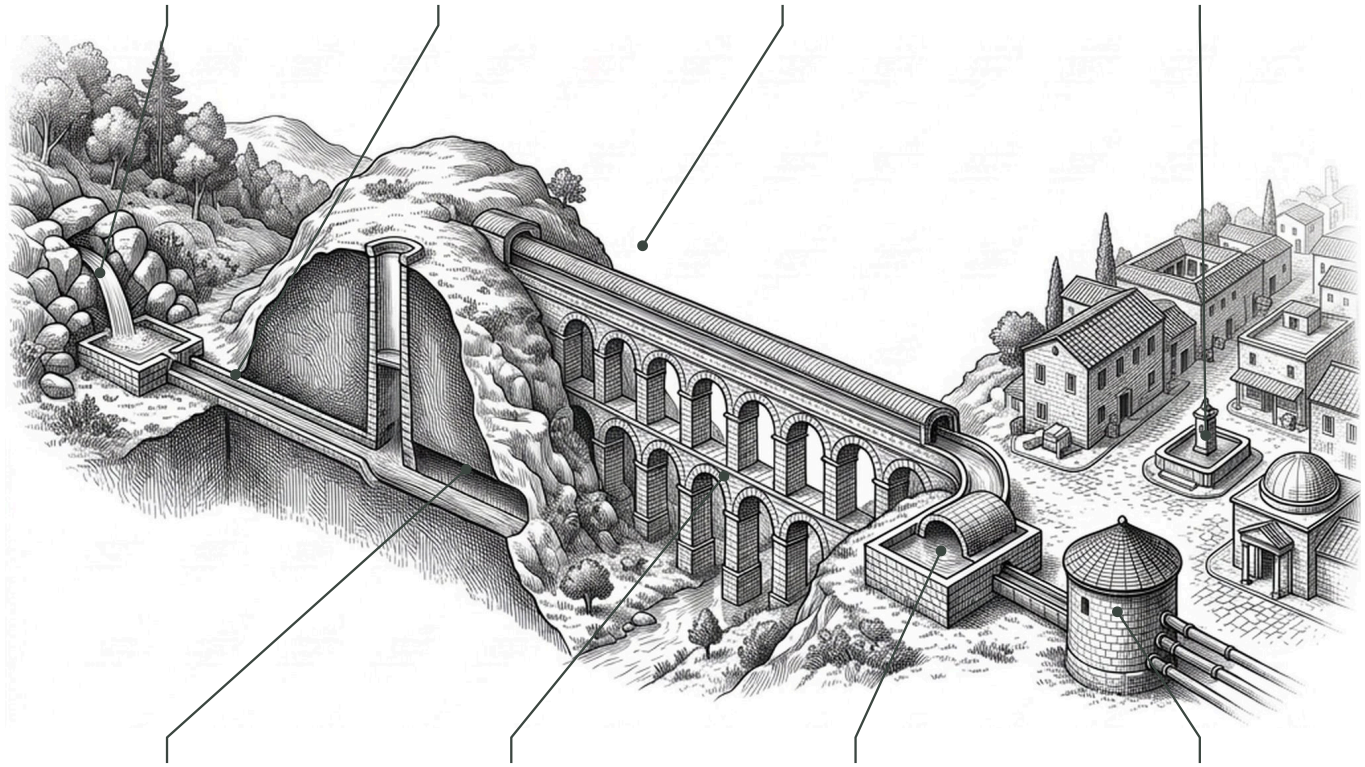
Name _____

LABEL THE AQUEDUCT

Write the name of each part on its numbered line. Use the word bank.



◆ WORD BANK ◆

Tunnel	Settling tank	Arches	Gentle slope
Spring	Distribution tank	Fountains and baths	Covered channel

1. **An aqueduct had no pumps. What made the water flow, and why did the channel need a gentle slope all the way?**

2. **Most of an aqueduct ran underground. Why? Where did builders use arches instead?**

3. **Why was the water channel covered with stone slabs?**

4. **Name three places the water went after the distribution tank. Which of them could only rich families have?**
