

Dive, Dive, Dive!

You are in a submarine. Draw what you see out of the window in each zone. Color the water darker each time.

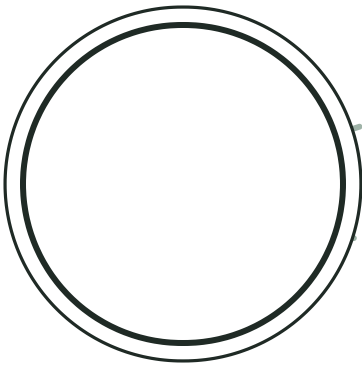

1. Sunlight zone 0 to 660 feet

Bright blue water. Draw a sea turtle or a dolphin.

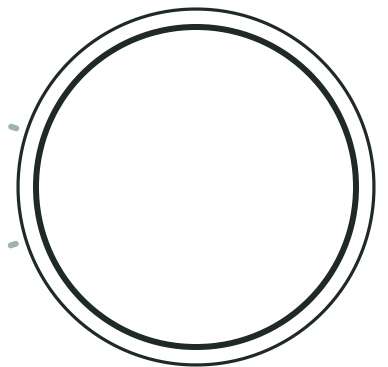

2. Twilight zone 660 to 3,300 feet

Dim blue water. Draw a swordfish or a squid.

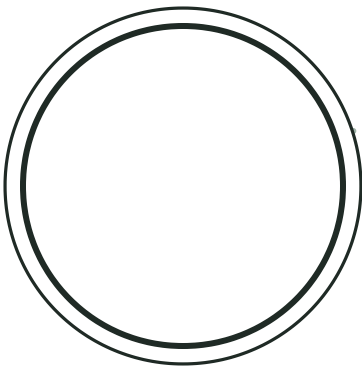

3. Midnight zone 3,300 to 13,100 feet

No sunlight. Draw an anglerfish and its glowing light.

4. Abyss 13,100 to 19,700 feet

Black water over mud. Draw a dumbo octopus.

5. Trenches 19,700 to about 36,000 feet

The deepest place. Draw a snailfish, or make up your own animal!

Dive, Dive, Dive!: Answer Key

Drawings will vary. Each window should show an animal that lives in that zone, with darker water each time.

Sea turtle,
dolphin or fish

1. Sunlight zone 0 to 660 feet
