When We Have a Fire Drill

The whole story on one page: keep it on a desk, in a binder or on the fridge.

1 At school, we practice fire drills. A fire drill is practice for staying safe.

2 The fire alarm rings. It is very loud, and sometimes it flashes. It can ring without a warning first.

3 The loud sound can surprise me. That is okay. I can cover my ears if I want to.

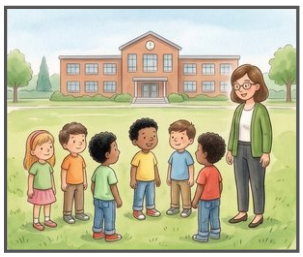

4 When I hear the alarm, I stop what I am doing. I leave my things where they are. They stay in the classroom while I am gone.

5 My teacher asks us to line up at the door. I stand in line with my class.

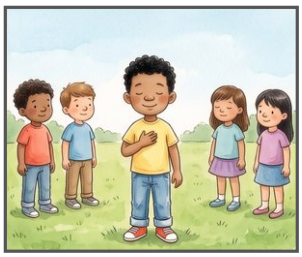

6 We walk down the hallway together. Walking helps everyone stay safe. We are quiet so we can hear our teacher.

7 We go outside to our meeting spot. My class stands together.

8 My teacher counts us. My teacher wants to know that everyone is here.

9 We wait outside until the drill is over. Waiting can feel long. I can take slow, deep breaths.

10 When the drill is over, we go back inside. My teacher tells us when.

11 We walk back to our classroom in a line. I go back to my desk.

12 Fire drills help us practice. When the alarm rings, I know what to do.
