

LABEL THE ZIGGURAT

Write the name of each part on its numbered line. Use the word bank.

◆ WORD BANK ◆

Side stairway

Central stairway

Gatehouse

Shrine on top

Terraces

Baked-brick casing

Mudbrick core

Sloping walls

Weep holes

1. The inside of the ziggurat was mudbrick, but the outside was baked brick set in bitumen. Why did the builders use two kinds of brick?

2. How many great stairways led up the front, and where did they meet?

3. What were the weep holes for?

4. What stood on top of the ziggurat? Why do the labels say "archaeologists think"?
